

Vijayaditya Peddinti

CONTACT INFORMATION	Center for language and Speech Processing (347)574-1561 (CLSP) Electrical and Computer Eng. Department vijay.p@jhu.edu Johns Hopkins University http://www.clsp.jhu.edu/people/vijay 3400 North Charles Street Baltimore, Maryland 21218 USA
RESEARCH INTERESTS	Speech signal processing and Machine Learning with focus on Acoustic modeling for robust speech recognition
EDUCATION	Whiting School of Engineering, Johns Hopkins University Ph.D. Candidate, ECE (expected May 2016) <ul style="list-style-type: none">• Dissertation Topic: Learning distortion stable temporal sequence representations• Advisor: Daniel Povey and Sanjeev Khudanpur International Institute of Information Technology - Hyderabad M.S. by Research, CS, May 2011 <ul style="list-style-type: none">• Dissertation Topic: Synthesis of missing units in a Telugu text-to-speech system• Advisor: Kishore Prahallad Dhirubhai Ambani Inst. of Inf. and Comm. Technology (DAIICT) B.Tech. in Information and Communication Technology, May 2007 <ul style="list-style-type: none">• Topic: Note Histogram based hash function for Content Based Music Information Retrieval (CBMIR)• Advisor: Vijaykumar Chakka

RESEARCH AND INDUSTRIAL EXPERIENCE

- | | |
|--------------------------|---|
| Sep '14–Nov '14 | Research Intern at Microsoft Research in Speech Recognition Group
Mentor : Mike Seltzer |
| July '14–July '14 | Fred Jelinek Memorial Workshop, Prague
Member of the Speech team working on ASR error prediction in mismatch conditions |
| May '13–Aug '13 | Research Intern at IBM T.J. Watson Research Center in Speech Transcription Technologies
Involved in the use of Deep Scattering Spectrum in acoustic modelling for speech recognition
Mentor : Tara Sainath |
| Aug '11–Present | Research Assistant at Center for Language and Speech Processing, Johns Hopkins University.
<i>Robust Automatic Transcription of Speech (RATS)</i> : Funded by DARPA
Involved in the project on processing of noisy and degraded speech for speech activity detection, keyword spotting, language identification and speaker identification. Developed feature extraction techniques for noise robust acoustic modeling (published in ICASSP, 2013).

<i>Zero Resource Speech Technologies and Models of Early Language Acquisition</i> , Summer workshop CLSP
Developed speaker invariant features for keyword spotting in zero resource scenarios (published in ICASSP, 2013). |
| Jan '11–Jul '11 | Analytics Intern at I-Labs, [24]7 Inc. |

Involved in algorithm development for event detection in volume time series created from multiple data streams like microblogs (like Twitter), social networks (like Facebook) and Chats (from customer service centers).

Dec '08–Dec '10 Research Assistant at IIIT-Hyd at the Speech and Vision Lab

Indian Language TTS , Funded By Ministry of Commn. & Info. Tech., India (MCIT)

Involved in the development of a text-to-speech (TTS) synthesizer for Telugu. Developed an algorithm for automatic segmentation of audio databases (published in Interspeech, 2011) and designed a back-off strategy for missing units (published in ICASSP,2011), implementation syllable based synthesizer in the Festival framework.

Indian Language Data Collection , Funded by Lang. Data Consortium of Indian Languages (LDC-IL)

Worked on automatic generation of phonetic alignments of audio data with erroneous transcripts, for speech data in Telugu as part of project for the collection of speech data each in Telugu, Kannada and English languages.

Jul '07–Jul '08 Technical Associate at Techmahindra Ltd.

TEACHING
EXPERIENCE

Spring 2013 Teaching Assistant, Speech and audio processing by humans and machines

Fall 2012,2013 Teaching Assistant, Processing of audio and visual signals

GRADUATE
COURSEWORK
